Dr. Cameron,

I would like to thank you for taking the time to speak at the Chief Architects Forum on January 11th at the White House Conference Center. I congratulate you and your colleagues at the School of Information Sciences and Technology on the contributions you have made to the growing field of enterprise architecture and the establishment of the Center for Enterprise Architecture at Penn State. I also want to recognize the valuable work you have done in advising a number of agency Chief Architects and the faculty of the National Defense University's iCollege on standards for enterprise architecture knowledge and skill development.

I look forward to collaborating with you as we move forward in promoting enterprise architecture research, education, and applied initiatives. Thank you for all you have done in these areas, for the Government, and for the Nation.

With Best Regards,
